

DECKER

LAND SURVEYING, P.C.

Survey and Mapping Guide For Civil & Earthwork Contractors

Solutions

⇒ Paper to Dirt

From paper plans to final construction, we offer tailored services to support your project at every stage. Our team's experience and expertise ensure accuracy, efficiency, and quality from start to finish, keeping your project on track and within specifications.

⇒ Professional and Precise Service

We deliver accurate and reliable surveying services that help mitigate risk and ensure compliance with design specifications. With our expertise, contractors can build with confidence, knowing every measurement and layout is precise.

Services

⇒ Construction Layout

We provide precise staking for all phases of construction, ensuring that structures, utilities, and grading align accurately with design plans. Our approach reduces liability by delivering reliable, on-site verification.

⇒ 3D Modeling for Machine Control

We recognize the growing demand in the industry and have expanded our services to meet this need. We develop comprehensive 3D surface models tailored for machine control, allowing GPS-guided grading and excavation. Our models enhance accuracy, streamline operations, and optimize cut/fill balance to improve project efficiency, giving our clients a competitive edge in the field.

⇒ GPS Services

We use GPS to help contractors establish accurate control points for stakeout, ensuring seamless job site integration. Our services tie control points directly into project coordinates, optimizing machine control and improving overall construction accuracy and efficiency

Why Choose us?

⇒ About Us

Decker Land Surveying is a family-operated business, deeply committed to the art and science of land surveying. We're not just a team; we're a family that loves to help our profession grow and thrive. We're also proud members of the New York State Association of Professional Land Surveyors (NYSAPLS), showing our commitment to excellence and keeping up with the latest in land surveying. Our goal is simple: to provide top-notch surveying services with a personal touch, ensuring every client feels like part of our family.

⇒ Experience

DLS boasts more than 30 years in the surveying field, having contributed to thousands of civil projects across New York State. We know how crucial it is to meet project deadlines. Our extensive experience adds significant value to every stage of renewable energy development.
